PAX Changes

- Training Requirements to Access PAX
- Increase Security Requirements
  - Separate Passwords
  - Password Change every 6 months (Required)

Office of the Assistant Chief of Staff for Installation Management

Programming Administration and Execution System

ADVANCE NOTICE - Security Requirements! In accordance with AR 380-19, Information System Security, beginning in June 2002, the requirement to change PAX System passwords every six months will be implemented. Additionally, Information Assurance Training/Testing is also required and will begin in June. Please be aware that these requirements are coming and that automatic features will guide you through the processes required.
